ABOUT US

Proyecto Technologies Limited is a Project Management Company specializing in Electrical and Civil Engineering projects across West Africa. Established in 2011, the company was founded with the goal of becoming a leading force in the Construction and Electrical Engineering sector within the region.

Our vision is anchored on integrity, strong moral principles, and continuous innovation. Proyecto is committed to delivering projects within exceptionally short timelines while maintaining quality performance that meets international standards, driven by a highly trained and skilled Nigerian workforce.

VISION AND MISSION

Mission

Guided by our values of quality, reliability, innovation, and speed, we aim to shape the spaces of the future. Leveraging a highly skilled workforce with the utmost professionalism, we are committed to building with excellence and foresight.

Vision

To become the leading and most trusted name in the construction of efficient, well-defined, and durable structures across West Africa.

OUR TEAM

Engr. Tayo Ige
Managing Partner

'Tayo is the Founder and Managing Director of Proyecto Technologies Ltd. He is a results-oriented engineering professional with over 2 decades of cross-sector experience spanning the Construction Industry, Oil and Gas, and FMCG sectors. His expertise encompasses strategic leadership, project delivery, and governance, including service on the governing council of a prominent Nigerian tertiary institution, as well as the successful execution of major, high-impact projects.

Arc. Onabolu Adeyemi
Chief Technical Officer

Adeyemi is a licensed Architect with over 2 decades of professional experience in the conceptualization, design, and execution of diverse projects spanning commercial and residential developments across multiple sectors. He possesses strong expertise in delivering strategic, integrated design solutions, with a proven track record of managing complex projects from inception through completion..

Kadir Karabiber
Procurement Director (Intl.)

Kadir provides end-to-end procurement and integrated Supply Chain management of advanced material systems and engineered components of construction and infrastructure projects. With over 2 decades of his industry experience, Proyecto has built a robust global procurement network of vetted European and Asian Manufacturers ensuring no compromise on quality at all times
